

WNY ChemConnect

A professional learning community (PLC) open to WNY chemistry teachers with a focus on 3 dimensional learning

ChemConnect is a professional learning community of chemistry educators. This group aims to bring together like minded individuals to further their understanding of chemistry with a focus on implementing the NYSSLS (NYS Science Learning Standards). The group is open to science educators in both the public and non-public schools throughout Western New York.

Objectives

- To gain a deeper understanding of three-dimensional learning
- To develop sets of analogous phenomena to be implemented in storylines
- To gain a deeper understanding of the Question Formulation Technique (QFT)
- To integrate the use of the 5E learning model with the GRC (gather, reason, communicate) pedagogy.
- To create a learning environment that begins to integrate 3D learning while being mindful of the current NYS Regents exam.

Facilitator: Dr. Sarah English
